

## REMARKS

In the above referenced Office Action, the Examiner divided the claims into the following groups:

I. Claims 40-51, drawn to a method for recording an event including the feature of "a second recording unit being physically separate from the first recording unit and transmitting the first set of visual data to the second recording unit"; and

II. Claims 52-53, drawn to a portable recording unit including the feature of "receiving at a marking time an indication that a portion of the visual recording data obtained at a marked time different from the marking time should be marked and to mark said portion in response to the indication".

In response, the applicants elect Group I without traverse. Non-elected claims 52 and 53 have been canceled.

Accordingly, the applicants have elected to begin prosecution with examination of claims 40-51, and dependent claims.

Applicants believe no fee is due with this response. However, if a fee is due, please charge our Deposit Account No. 50-0665, under Order No. 345288015US from which the undersigned is authorized to draw.
